

# Genetic Resources, their conservation and manipulation: The case of wild cassavas, *Manihot* spp.

by  
Nagib M. A. Nassar

Course by Nagib Nassar

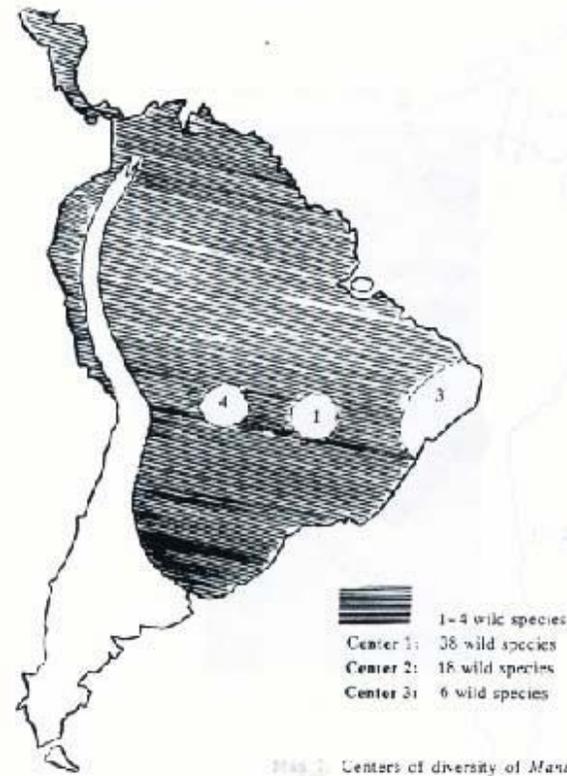

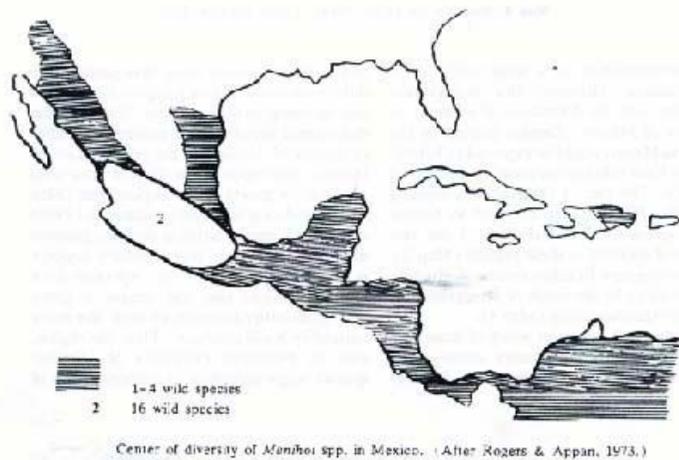

# I – Wild Species

1. Determination of localities and collection of wild species
2. Genetic Variation and useful characters
3. Gene transference by interespecific hybridization
4. Development of interespecific hybrids

# **I 1. Determination of localities and collection of wild species**

## **1.1 Centers of diversity**

# 1.1 Centers of diversity
